

# Infolytica Corporation Seminar

Chicago, IL - Lincolnshire Marriott Resort  
Tuesday, April 3<sup>rd</sup> 2007

Session One - 1pm

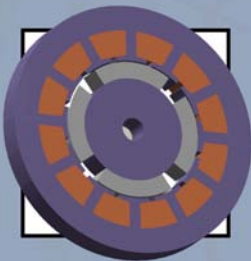

## Electromagnetic Design Software

Learn how the innovator in electromagnetic design software can increase your productivity!

Infolytica's suite of robust and flexible design tools combine to solve magnetic, electric & thermal effects.

Understand and improve the behavior of your electromagnetic and electromechanical devices.

Session Two - 3pm

## Electric Motor Design and Analysis

See the latest tools for the electric machine designer in action.

Infolytica's MagNet and MotorSolve demystify the art of electric motor analysis and design.

Learn how to get the complete design picture for any electric motor (BLDC, servo, induction, linear) or generator!
